### A MARINE SERVICE & SOLUTIONS COMPANY YOU CAN TRUST!

We are a marine solutions company that was built ground up on our core values and the energy that we have received from our happy customers.

Our customers are our focus, we have always achieved our growth through them. As a company we strive for excellence by nurturing new ideas and developing creative goals, while maintaining our integrity through all our operations.

We uphold a sense of responsibility and ownership of our organization. Our team of well-trained professionals equipped with the best products, tools and technologies guarantee to deliver the best services every time! Whether it's a new state-of-the-art project or complex restoration jobs, we get the work done.

### Mission

To offer quality marine solutions, services and products through our professional team by leveraging our excellent reputation that we've established through prompt deliveries.

### Vision

To be the most trusted name in the global marine, naval and off-shore communities across the globe.

# CORE VALUES

Services that reflect Quality and Prompt Delivery

## OFF-SHORE

We understand that the off-shore industry needs tough, efficient and safe equipment and services.

## MARINE

We provide a broad of HVAC/R, Insulation, Fire Protection, Piping and other Solutions for the Marine Community.

## NAVAL

With extensive experience in Naval Projects, you can trust our team to deliver promptly with highest standards in the industry.

# OUR HSEQ POLICIES

As a company we are focused on Health, Safety, Environment, and Quality at every level of our operations.

With strict HSEQ policies and procedures in place alongside a work culture of safety and responsibility ingrained in us, DCON is committed to keeping the highest standards in everything we do. Our comprehensive and well laid out quality management program demonstrates our commitment to continual progress. We strive hard to improve employee safety, reduce workplace risks and create better, safer working conditions, while being compliant with environmental regulations and recognized industry standards.

DCON's policies and requirements are given to the client as a document that forms part of the service agreement after taking to consideration the client's requirements. Our team of experts will liaise with the client's appointed team to implement HESQ tasks as per the agreed standards.

## DCON HSE PLAN

---

DCON follows a clearly defined Health, Safety and Environment plan that defines the various HSE requirements to be implemented during execution of work at the project site.

Ensuring safety is a responsibility of DCON and has to brief the employees about the hazards and safety precautions to be followed before assigning any job to them. The roles and responsibilities of the site personnel in accident prevention is given in this document under organization responsibilities.

All DCON employees who are working on the client site are required to read understand and practice this HSE plan without any exception. This HSE Plan is also submitted to the clients and is subject to any amendments to comply further to all the requirements of clients based on comments from their HSEQ department. Contact us for more details on the HSE Plan.

# DCON SERVICES & SOLUTIONS

DCON offers full turnkey solutions for any type of demanding cruise, ferry or yacht vessel builds, including public spaces areas, cabins, crew, utility areas and anything in-between. Full turnkey means that DCON will design and build up the interior from the basic steel construction to a fully functioning interior, including HVAC/R system, Insulation, Fire protection, Accommodation Piping, etc.

Our team is experienced in offering services and solutions of the highest quality to various sectors in the industry including marine, offshore and naval.  
Get in touch with our sales team for more details.

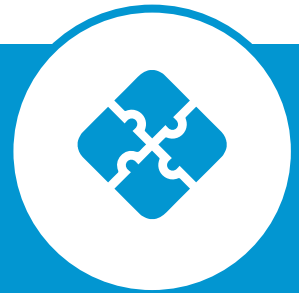

## NEW BUILDING

When constructing new vessels, you need a partner who has the experience and resources to get things done perfectly and on time. At DCON, we specialize in delivering better and more cost-effective solutions for our clients.
